(Washington, D.C., May 15, 2020)—The [AABC Commissioning Group](#) (ACG) announced it will offer an on-demand version of its popular Certified Commissioning Authority (CxA) Workshop along with a live 1-hour online session with its instructors to allow clarification of concepts introduced in the recorded workshop.

The prerecorded, 3-hour workshop will cover all aspects of commissioning ranging from project management to functional testing, and both new and existing building commissioning. It is recommended for the video to be watched prior to the live Q&A session with instructors. The live Q&A session will take place on Friday, May 29 at 2:00 PM Eastern Time. (These sessions ARE NOT intended to directly address exam content.)

Registrants for the event can choose to either watch the workshop and Q&A session only or bundle it with a specially priced exam package. Up to four AIA Learning Units (LUs) can be earned by attendees for continuing education purposes.

The CxA program achieved ANSI accreditation in 2017, and the credential is also a recognized certification by the Department of Energy's Better Buildings® Workforce Guidelines program, ensuring that the CxA is considered an approved commissioning credential for all federally funded projects.

The CxA certification is the premier credential for independent commissioning providers. It demonstrates you are an experienced commissioning provider with a complete understanding of the commissioning process and with the ability to ensure that the intent of the building owner is achieved.

Event: On-demand CxA Workshop & Live Q&A Session

Sponsor: AABC Commissioning Group

When: May 29, 2020, 2:00 PM Eastern (Live Q&A Session)
