

## **Internship Opportunity: Commissioning Intern**

**Company:** Capital Engineering Consultants, Inc.

**Location:** Sacramento Office - 11020 Sun Center Drive, Suite 100, Rancho Cordova, CA 95670

**Position Title:** Commissioning Intern

### **Internship Overview:**

This internship offers hands-on experience in various disciplines related to commissioning engineering, including mechanical, electrical, energy, and sustainability. The intern will report to the Director of Commissioning and will work in person at the Sacramento office.

The internship is designed to provide professional development through training and growth opportunities, supporting the engineering team in project documentation, commissioning tasks, and general administrative duties.

### **Duties and Responsibilities:**

Interns will gain exposure to several areas including commissioning, energy and sustainability, business development and marketing, general administration, mechanical-plumbing, and electrical systems. Key responsibilities may include:

1. Preparing and updating the Master Equipment List (MEL).
2. Preparing system verification checklists and functional tests.
3. Reviewing operations and maintenance (O&M) manuals and selected submittals.
4. Participating in limited design review activities.
5. Compiling final reports.
6. Supporting site visit activities such as assessments, installation verification, and testing.

### **Duration:**

Internships are available throughout the academic year and during the summer.

### **Application Instructions:**

Submit resumes to the Director of Commissioning, Ashkan Azarkeyvan at [aazarkeyvan@capital-engineering.com](mailto:aazarkeyvan@capital-engineering.com) or to the Human Resources Director, Katriona McLean-Lucas at [kmclean-lucas@capital-engineering.com](mailto:kmclean-lucas@capital-engineering.com).
